

Carambola 2 EOL notice

Dear Carambola 2 customers,

This is an EOL notification document for the Carambola 2 SoM and product family. The products indicated in this notice are approaching their End Of Life, which means the following:

- After the EOL date, orders for the indicated products will no longer be accepted;
- After the EOL date, no more 8devices software or firmware updates will be issued for the indicated products. OpenWrt or other third-party upstream support may or may not continue and is not directly dependent on this EOL notice;

Any orders filled for the indicated products up to and on this date will be fulfilled. Final software and firmware builds released up to and on this date will remain available.

EOL date	October 6th, 2025
Products affected	Carambola 2; Carambola 2-L; Carambola 2 DVK;
Reason for EOL notification	Critical component is being discontinued (Qualcomm AR9331)
Contact information	info@8devices.com

Current Carambola 2 clients may be interested in the Carambola 3 as a replacement component. The Carambola 3 is pin-to-pin compatible with the Carambola 2 while boasting greater performance specifications. More information can be found on the 8devices Carambola 3 product page:
