

## Jalapeno and Habanero EOL notice

Dear Jalapeno and Habanero customers,

This is an EOL notification document for the Jalapeno and Habanero SoMs. The products indicated in this notice are approaching their End Of Life, which means the following:

- After the EOL date, orders for the indicated products will no longer be accepted;
- After the EOL date, no more 8devices software or firmware updates will be issued for the indicated products. OpenWrt or other third-party upstream support may or may not continue and is not directly dependent on this EOL notice.

Any orders filled for the indicated product up to and on this date will be fulfilled. Final software and firmware builds released up to and on this date will remain available.

<b>EOL date</b>	November 1st, 2026
<b>Products affected</b>	Jalapeno Jalapeno-DVK Habanero Habanero-I Habanero-DVK
<b>Reason for EOL notification</b>	Critical components are being discontinued (Qualcomm IPQ 4018, Qualcomm IPQ 4019, Qualcomm IPQ 4029)
<b>Contact information</b>	info@8devices.com

**Important:** This EOL announcement cancels Habanero PCN HAB-0001\_v.1.0 (issued 2026-05-20) and Jalapeno PCN JAL-0001\_v2.0 (issued 2026-05-26). Orders for these products placed before the EOL date will use their currently available components, but pricing may be adjusted to reflect component price fluctuations.

While we currently don't offer direct pin-to-pin replacements for the Jalapeno and Habanero modules, we are always evaluating our roadmap and may introduce alternative solutions in the future.

Your loyal client and partner,

8devices
