

## Jalapeno Product Change Notification

**PCN Tracking:** JAL-0001\_v2.0

**Issued Date:** 2026-05-27

**Effective Date:** 2026-07-01

### Dear 8devices Customer,

We are sending this letter to inform you about the changes of the product or products you have purchased. 8devices announces the product change for the Jalapeno WiFi module. More details can be found in the table below:

### Affected product list

- Jalapeno Wi-Fi module
- Jalapeno DVK

### 8devices Jalapeno RF shield upgrade notification

Old RFFM8528TR7 Is End of life, no pin to pin alternatives are available. Introducing new 5Ghz FEM, Part number SKY85716-11, this requires minor design change. New Jalapeno module is pin to pin compatible with current version.

Due to design change, certification below will be no longer valid\*:

- CE, UKCA ;
- FCC, IC ;
- KCC ;
- TELEC;

\*only applies to new design modules, current version not affected.

### Impact and recommended actions

Tests showed that there is no negative impact to the device. Devices will certify new design modules by the end of 2026.

8devices hopes that this announcement assists you in planning your future requirements.
