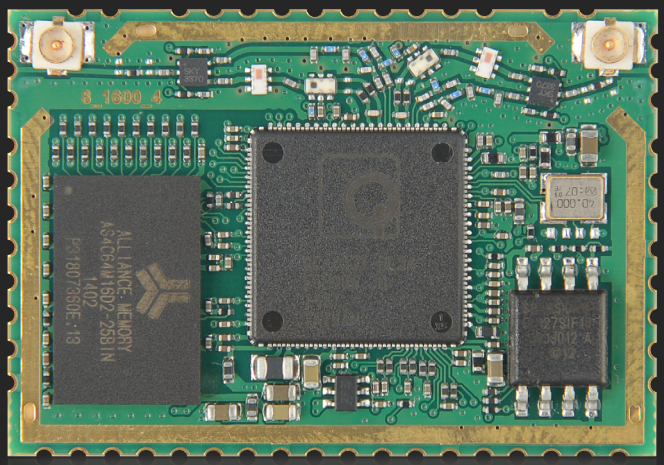
Issued Date: 02 January 2024
Proposed First Ship Date: 02 April 2024
Last date to place order*: 31 January, 2024



Lima product change notification

To all 8devices Lima module users,
We would like to inform you about changes being made to the Lima WiFi modules we will be supplying in the future. More details can be found below.

Title	8devices Lima RAM upgrade notification
Affected product list	Lima-C Lima-I Lima DVK
Description	Because of an OpenWRT warning that devices with 64MB RAM may experience stability issues, we've decided to increase Lima module RAM size from 64MB to 128MB. All newly produced Lima products will have increased RAM capacity.
Impact and recommended actions	Tests have shown that there is no negative impact to the device or for its operation.

8devices hopes that this announcement assists you in planning your future requirements.

*The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This isdetermined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, 8devices will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.
