Product change notification

Dear 8devices Customer,

We are sending this letter to inform you about the changes of the product or products you have purchased. 8devices announces the product change for the Lima WiFi module. More details can be found in the table below:

Title	8devices Lima RAM upgrade notification
Affected product list	Lima-C Lima-I Lima V2 Lima DVK
Description	Because of an OpenWRT warning that device with 64MB RAM may have some stability issues, decision was made to increase RAM size on the module from 64MB to 128MB. All newly produced Lima products will have an increased size of RAM.
Impact and recommended actions	Tests made showed that there is no negative impact to the device or for its operation.
Whom to contact at 8devices with questions	Commercial questions: info@8devices.com Technical questions: support@8devices.com or mantas.m@8devices.com

8devices hopes that this announcement assists you in planning your future requirements.
